

Mikhael Hilaly

847-262-1011 | mikhael@hilaly.com | [LinkedIn](#) | [Portfolio](#)

Honors graduate with a B.S. in Business Administration and a minor in Data Science. Experienced in Python, SQL, machine learning, and data visualization to analyze data and generate actionable insights. Seeking an entry-level data analytics, business intelligence, or product analytics role.

EDUCATION

University of Southern California, Los Angeles, CA

May 2026

B.S. in Business Administration, Minor in Data Science | GPA: 3.64 | Dean's List

- **Coursework:** Essentials and Digital Frontiers of Big Data, Enterprise Data Architecture, Applied Machine Learning and Data Mining.
- **Leadership:** Trojan Chess Club (Director of Communications) — organized 20+ chess tournaments, increasing participation by 15% through strategic planning, event promotion, and sponsor coordination with Chess.com; increased follower engagement by 30%.

Sports Business Classroom (SBC), Los Angeles, CA

February 2026

- Selected to participate, gaining hands-on exposure to basketball operations, salary cap management, sports analytics, expansion draft, and front-office decision-making through instruction from NBA and WNBA executives.

WORK EXPERIENCE

Scoop Analytics, San Francisco, CA

June–August 2025

Product Tester and Marketing Intern

- Accelerated product release cycles by 30% by leading data quality testing and analytics across 5+ product datasets (GA4, HubSpot, engagement, and product usage), using trend analysis and developing 20+ dashboards to identify bugs and optimize product performance.
- Drove a 40% increase in demo engagement through data-driven demo scripts and visualizations for product marketing videos, translating complex analytics into actionable business insights.

PlanYear, San Francisco, CA

May–August 2024

AI Support and Operations Intern

- Improved data processing efficiency and quality assurance for prompt engineering workflows by co-developing and automating a centralized AI output database using Claude 3.5 on AWS.
- Improved information extraction accuracy from medical insurance data to 99% by customizing and deploying 100+ prompt engineering templates for Google Gemini.

PROJECTS

NFL Quarterback Mobility Analysis, Los Angeles, CA

Sept.–Nov. 2025

- Analyzed quarterback efficiency using Welch's t-tests, finding mobile quarterbacks averaged significantly more yards per play than pocket passers without increasing turnover rates.
- Evaluated explosive play rates (20+ yards), finding no significant difference between mobile and pocket quarterbacks, suggesting offensive scheme, not mobility, drives big-play production.

NFL Kicking Under Pressure, Los Angeles, CA

March–June 2025

- Analyzed 40 NFL kickers across the 2015–2024 seasons using Python (pandas, SciPy) and paired t-tests, finding field goal percentage decreases by approximately 10% in high-pressure situations.
- Built regression models and visualizations in Matplotlib and Seaborn across 11 kick-distance ranges; demonstrated that pressure reduced field goal success rates by approx. 4.7% after controlling for distance.

SKILLS

Programming Languages: Python, SQL, R **Libraries & Frameworks:** pandas, NumPy, scikit-learn, Matplotlib, Seaborn

Analytics & BI Tools: Tableau, Microsoft Excel, Google Analytics 4 (GA4), HubSpot

Core Competencies: Data Analytics, Statistical Analysis, Data Visualization, Data Cleaning, Machine Learning, Regression Analysis, Hypothesis Testing, A/B Testing, Dashboard Development, Business Intelligence, Prompt Engineering
