EDUCATION

University of Southern California | Graduating Spring 2026

Los Angeles, CA

Bachelor of Science in Business Administration, Minor in Data Science | GPA: 3.61

Sports Business Classroom (SBC) | February 2026

Los Angeles, CA

WORK EXPERIENCE

Scoop Analytics

San Francisco, CA

Product Tester and Marketing Intern

June 2025 - August 2025

- Tested product features across 5+ datasets (GA4, HubSpot, engagement, usage) by performing **data analysis** and validation and building 20+ visualizations (bar charts, line graphs, heatmaps), identifying bugs and reporting issues with documented prompts and screenshots, contributing to a 30% faster release cycle
- Produced and presented 12+ data-driven demo videos published on YouTube, LinkedIn, and company website, using real datasets and visualizations to communicate insights and analytics workflows, increasing engagement by 40%

PlanYear

San Francisco, CA

AI Support and Operations Intern

May 2024 - August 2024

- Developed and refined 100+ **prompt engineering** workflows using Claude 3.5 and Gemini, enabling accurate data extraction from medical documents with 99% accuracy
- Built and maintained a centralized **Excel database** (100+ AI outputs) by structuring and inputting data, improving data integrity, organization, and consistency for ongoing analysis

PROJECTS

NBA Player Position Predictor

Los Angeles, CA

Analyst

March 2025-June 2025

- Built and tuned a **machine learning classification model (MLP)** using scikit-learn with **feature scaling (StandardScaler)** to predict player positions from performance data
- Evaluated model performance using **confusion matrices and classification metrics**, refining **feature selection and preprocessing** to improve prediction accuracy
- Automated visualization of player performance trends by generating Points-Per-Game bar charts across career seasons

NFL Quarterback Mobility Analysis

Los Angeles, CA

Analyst

September 2025-November 2025

- Analyzed **quarterback efficiency** and **playstyle impact** using Welch's t-tests, finding higher yards/play for mobile QBs (7.3 vs. 6.0, $p = 0.018$) without increased turnovers
- Evaluated explosive play rate (≥ 20 yards) across QB types, finding no significant difference (9.07% vs. 9.15%), suggesting scheme not mobility drives big-play production

LEADERSHIP AND INVOLVEMENT

Trojan Chess Club

Los Angeles, CA

Director of Communications

August 2024-Present

- Organize 5+ chess tournaments each semester, increasing participation by 15% through strategic planning, event promotion, and sponsor coordination, also managing social media (Instagram and Discord), growing follower engagement by 30%
- Competed as Board 1 for USC in the Big Ten Chess Tournament and Amateur Team West, leading the team to a top-2 finish

USC Intramural Sports

Los Angeles, CA

Captain

January 2023-Present

- Led 4 intramural teams (soccer, basketball, football, volleyball) managing 15–20 players per roster, leading roster construction, lineup optimization, and in-game strategy, resulting in 3 championship seasons
- Improved team performance by organizing 2–3 practices per week, assigning position-specific roles, and coaching new athletes, leading to stronger coordination and consistent execution

SKILLS

Technical Skills: Python • SQL • R • Excel • Tableau • Machine Learning • Data Visualization • A/B Testing • Predictive Modeling
