EDUCATION

University of Southern California, Los Angeles, CA

May 2026

B.S. in Business Administration, Minor in Data Science | GPA: 3.64 | Dean's List

- **Coursework:** Essentials and Digital Frontiers of Big Data, Enterprise Data Architecture, Applied Machine Learning and Data Mining.
- **Leadership:** Organized 20+ USC Chess Club tournaments, increasing participation by 15% and social media engagement by 30% through event promotion and sponsor coordination with Chess.com.

COOP Careers - Data Analytics Fellowship

Expected Dec. 2026

- Selected for a 16-week, 200-hour Data Analytics Fellowship developing skills in SQL, Python, Tableau, data cleaning, visualization, communication, and client-based projects.

Sports Business Classroom (SBC), Los Angeles, CA

February 2026

- Selected to participate, gaining hands-on exposure to basketball operations, salary cap management, expansion draft, and front-office decision-making through instruction from NBA and WNBA executives.

WORK EXPERIENCE

Scoop Analytics, San Francisco, CA

June-August 2025

Product Tester and Marketing Intern

- Identified and documented 20+ product bugs, benchmarking new charts against validated outputs to catch data, rendering, and UI issues for the engineering team.
- Built and validated 100+ data visualizations across 5-10 chart types, verifying numerical accuracy, chart functionality, and visual quality using customer data.
- Produced 10+ product demo videos for 2 digital channels - LinkedIn and YouTube - scripting and presenting analytics use cases that showcased new charts, customer insights, and product capabilities.

PlanYear, San Francisco, CA

May-August 2024

AI Support and Operations Intern

- Customized 100+ AI prompts across multiple insurance carriers and plan types, improving information-extraction accuracy to approximately 99% for employee benefits data.
- Generated and reviewed 1,000+ AI outputs using Google Gemini and Claude, identifying failure patterns and refining prompts to improve consistency and data quality.
- Cleaned and standardized 30+ benefits spreadsheets in Excel, correcting values, formatting inconsistencies, and review flags to improve data quality and usability.

PROJECTS

NFL Quarterback Mobility Analysis, Los Angeles, CA

Sept.-Nov. 2025

- Analyzed NFL play-by-play data from 2020-2025 in Python, comparing mobile and pocket quarterbacks across yards per play, explosive-play rate, and bad-play rate.
- Engineered a Mobility Score using scramble rate and average scramble yards, then applied Welch's t-tests to evaluate statistically significant differences between quarterback groups.
- Found mobile quarterbacks averaged 7.3 yards per play vs. 6.0 for pocket passers, while explosive-play and bad-play rates remained nearly identical.

USC Women's Basketball Championship Outlook, Los Angeles, CA

August 2026

- Analyzed USC women's basketball performance, player workload, and roster construction in Python, creating visualizations to compare efficiency, offensive concentration, returning production, and title-contender benchmarks.
- Engineered 22 preseason features across 3,607 Division I team-seasons and built a Ridge regression model that achieved 0.84 R² and 4.63 MAE across 1,990 out-of-sample predictions.
- Projected USC to a 35.53 SRS for 2026-27 and benchmarked the result against 16 national champions, identifying prior team strength, roster continuity, and returning player value as key predictive factors.

SKILLS

Programming Languages: Python, SQL, R **Libraries & Frameworks:** pandas, NumPy, scikit-learn, Matplotlib, Seaborn

Analytics & BI Tools: Tableau, Microsoft Excel, Google Analytics 4 (GA4), HubSpot

Core Competencies: Data Analytics, Statistical Analysis, Data Visualization, Data Cleaning, Machine Learning, Regression Analysis, Hypothesis Testing, A/B Testing, Dashboard Development, Business Intelligence, Prompt Engineering
